

ANTI-INFLAMMATOIRES

MODE D'ACTION

Réaction inflammatoire

RAPPEL

Molécules de la membrane

↓
Phospholipase

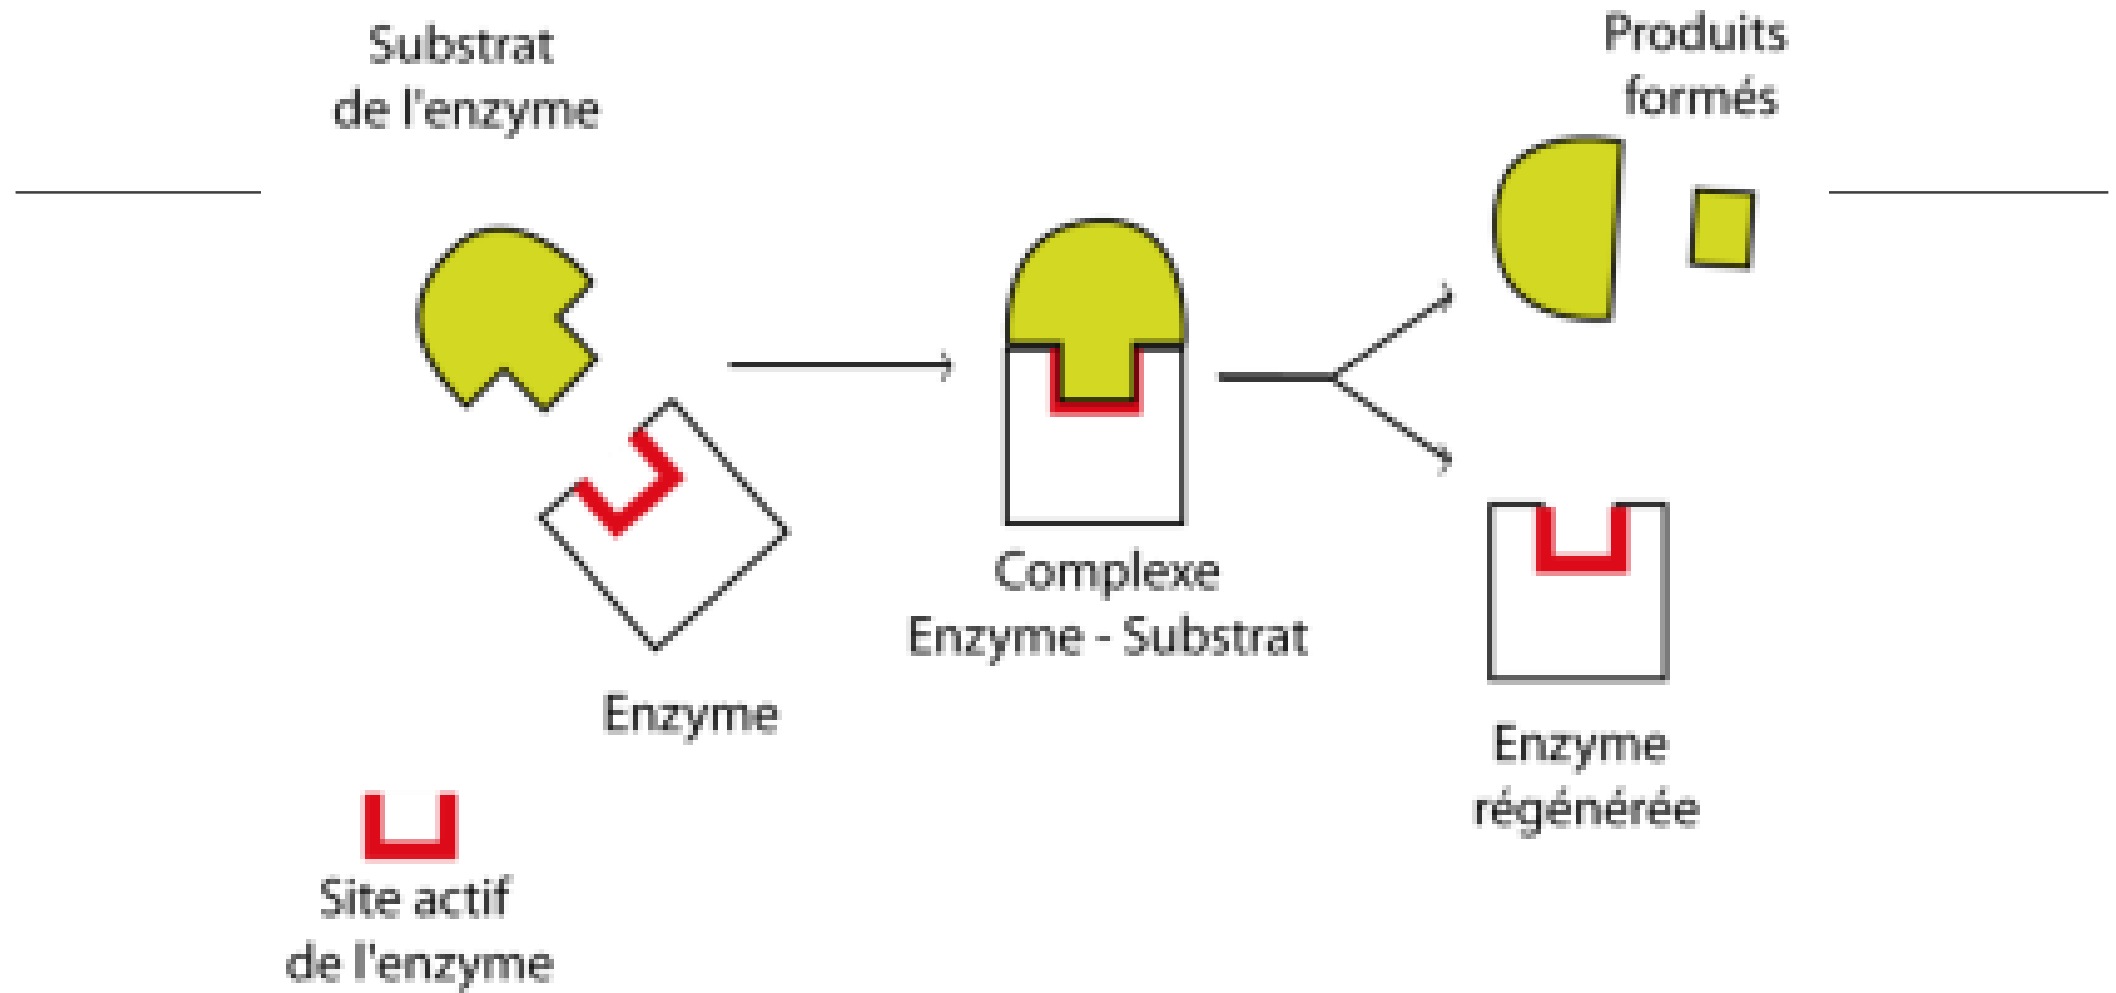

Acide arachidonique

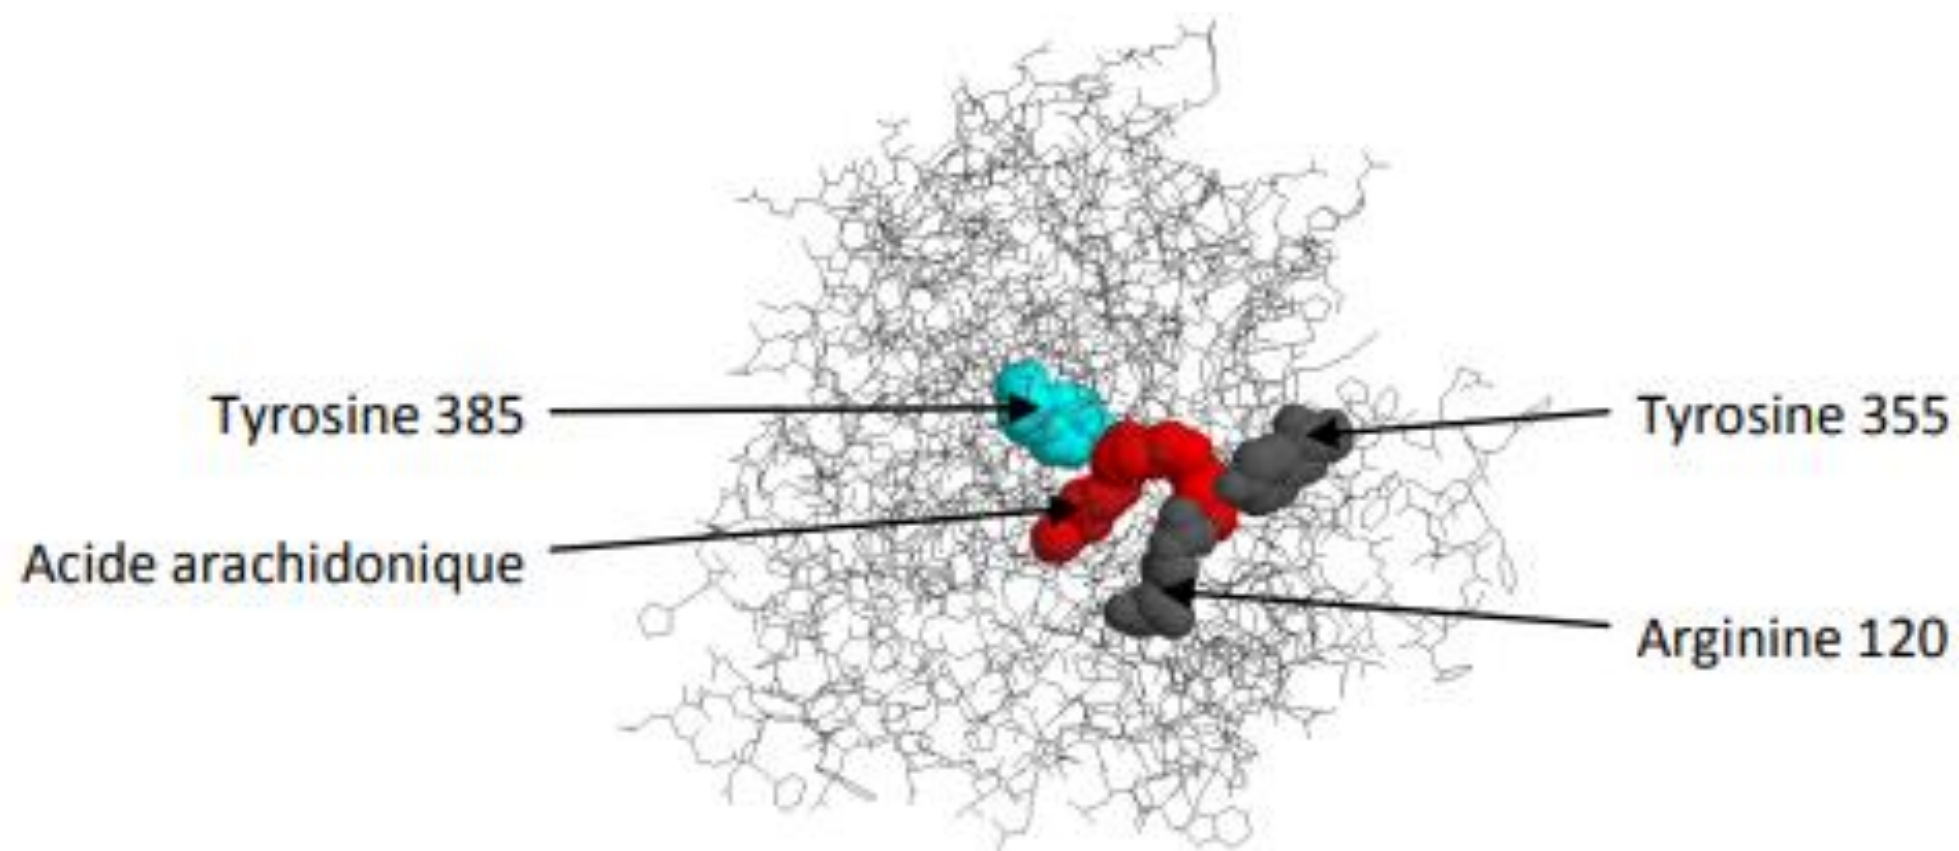

↓
Cyclooxygénases (COX)

Prostaglandines H et G

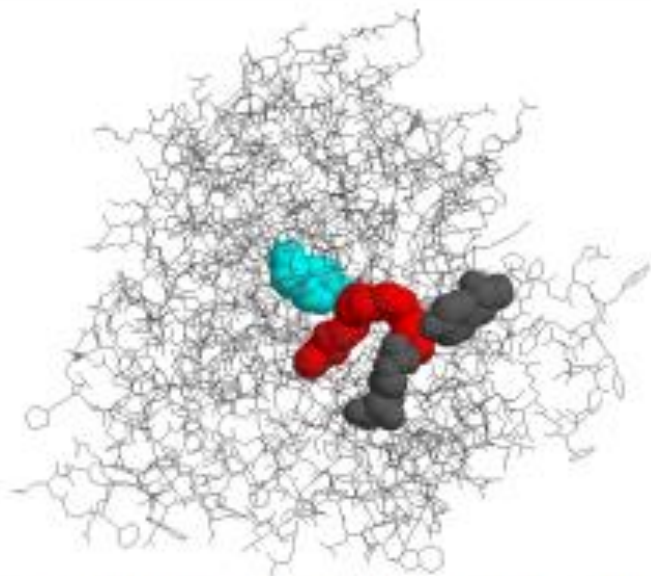

↓
*Prostaglandines
synthase*

Prostaglandines E, F ,D =molécules inflammatoires

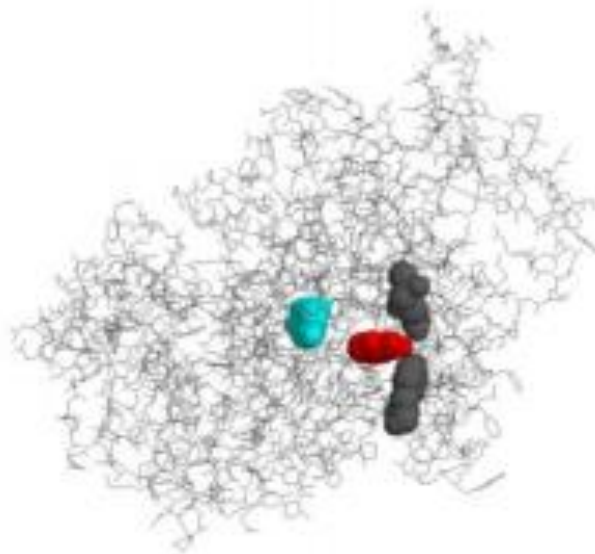

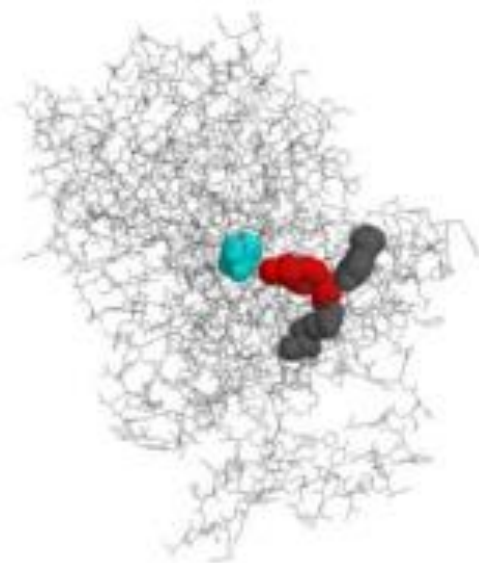

Visualisation du complexe Cox - Acide arachidonique avec le logiciel Rastop

Complexe Cox - Acide arachidonique

Complexe Cox - Aspirine

Complexe Cox - Ibuprofène
